German basic

EDUCATION

Software Engineering
Universidad Nacional Mayor de San Marcos, Lima
2014 – 2018

KENNY HORNA

SENIOR SOFTWARE ENGINEER 200 · OK

I build backends that stay up while I sleep. I sleep very well.

200 PROFILE

Senior software engineer with eight years of building backends, integrations and the products on top of them. At ABOUT YOU I connect retail stores and platforms to one of Europe's leading fashion e-commerce companies.

I like software that behaves the same on Monday as it did on Friday. I use AI agents every day to get from idea to a working version faster, and I still review every line that ships.

201 EXPERIENCE

SENIOR SOFTWARE ENGINEER

Dec 2022 – now

ABOUT YOU · HAMBURG

- Promoted from Backend Developer. Integrate retail stores and platforms with ABOUT YOU, so partners across the region sell with less friction.
- Build and run the services that receive, transform and route partner data between ABOUT YOU and its retailers.

PHP · Laravel · AWS (SQS, S3, ECS) · REST APIs

FOUNDER

Jan 2024 – now

QBK LABS · PERU, REMOTE

- A small software consultancy: custom software built around what each client needs, plus products of our own.
- Built System Cruises, the cost and quality control system for Abercrombie & Kent's cruise operations in Peru.
- Building Aquisito in-house: where to eat and what to do in Peru, with food routes, events and tickets (beta).

Laravel · Filament · Octane · Java

BACKEND DEVELOPER

May 2020 – Nov 2022

ABOUT YOU · HAMBURG

- Received, transformed and routed the data flowing between ABOUT YOU and its retail partners.

SOFTWARE ENGINEER

Mar 2020 – Aug 2020

HUMANTECH · LIMA

- Backend development and functional analysis for multi-platform projects at a software consultancy.

KENNY HORNA

BEYOND WORK

Arsenal supporter since the Invincibles season. Unbeaten in commitment ever since.

Weekend cook. The recipes live in a hidden corner of kennyhorna.com; finding it is part of the interview.

REFERENCES

Available on request, from former directors, CEOs and CTOs I've worked with.

THIS CV

Built with the same theme as kennyhorna.com. The web version has more jokes and fewer page breaks.

201 EXPERIENCE, CONTINUED

APPLICATION ENGINEER

Jul 2018 – Mar 2020

ÓPTIMA ENERGÍA · LIMA

- Designed and built the business apps behind an industrial IoT platform that helps companies use less energy.
- Functional analysis and software architecture for the platform's internal tools.

Laravel · Vue · Trello API

FUNCTIONAL ANALYST & LEAD DEVELOPER

Feb 2018 – Dec 2019

ARTIFUCIO · LIMA

- Led Pichanga App, a booking app for Peru's casual football matches, through its whole lifecycle as technical lead, UI/UX designer and backend developer.
- Managed the development team, its planning and progress reporting.

Android · Java · REST API

201 FREELANCE, SELECTED

2026

SPARK

Analytics on top of Óptima's smart lighting: sensor data from industrial sites turned into energy, cost and CO_2 saved, occupancy and maintenance alerts.

Laravel · Inertia · Vue · ECharts

2024

ASTON LIGHTING

Product catalog website for an industrial lighting company in London. Now building their rebrand too.

Laravel · Filament · AWS S3

202 SIDE PROJECTS

```
$ ps aux --user=kenny
```

Dóich RUNNING
Learn German by thinking in Spanish, without the detour through English. Dóich is in production; my German is still in staging.

PelotaYa RUNNING
Bookings and cash control for football field owners in Peru.

CotizaRapido.pe RUNNING
Quotes for sales teams in Peru, taxes included, sent over WhatsApp.

TinyFiles Compressor RUNNING
A free macOS app that turns images into WebP and videos into WebM.
